

Products Attachments for Court loader

Pic. 402 High tip bucket

for court loaders

View from the front

A High tip bucket raises the unload height and the dumping angle. The Unload height will be raised for approx. 300mm over the height of the bearing point of the quick coupler.

Standard equipment:

- For courtloader or skid-skeer-loader
- Qualified for loading of pour loading goods with max. weight of 1000kg/m³
- With highwear resistant cutting edge (150x16mm, 500HB)
- Bucket height 800mm, Bucket depth 1000mm
- With 2 hydraulic cylinders

Special designed attachments are deliverable on request !

Width	Volume (SAE)	Weight
1000 mm	ca. 400 l (ca. 0,48m ³)	ca. 340 kg
1200 mm	ca. 495 l (ca. 0,60 m ³)	ca. 360 kg
1400 mm	ca. 590 l (ca. 0,71 m ³)	ca. 380 kg
1600 mm	ca. 680 l (ca. 0,82 m ³)	ca. 400 kg

Additional:
