

## Products Attachments for Court loader

### Pic. 407 Silagebucket type S

for court loaders

Opened

The Silagebucket is designed for collection and transportation of silage of each kind in agriculture range.

#### Standard equipment:

- For courtloader or skid-skeer-loader (the quick-coupler must be 450mm smaller than the width of the Silagebucket)
- With highwear resistant cutting edge (150x20mm, 500HB)
- With strong substructure
- Bucket height 650mm, bucket depth 850mm
- Width 1500mm with one sickle reinforcement in the bucket
- With 2 hydraulic cylinders
- Opening width ca. 1250mm

Special designed attachments are deliverable on request !

**IMPORTANT:** Please be informed that the opened grapple in back rolled position may crash with the lifting arm of the carrier vehicle (especially loader with Z-kinematics).

For these damages we won't take any liability!

Width	Volume	Sickles	Weight
1300 mm	ca. 675 l	4	ca. 450 kg
1500 mm	ca. 790 l	4	ca. 490 kg
