**Bucket 1020mm [L01]**

**Bucket 1800mm [L02]**

**Bucket 1800mm [L03]**

*With these attachments our company starts in the 1960s: The small soil bucket for auto-latch loader is the universal tool for loading works. The Bucket with rearward brackets [L02] is better for high volume gluey goods like manure. The Bucket with insided brackets [L03] is optimal for loose materials.*

**INFORMATION**

- Inklusiv standard latch-trestle (please indicate the brand of the loader)
- Bucket depth 900mm

**Free selectable colors**
