

Brackets for rebuilt of attachments for loader with other quick couplers.

**Manitou**

**Merlo**

**Scorpion**

**INFORMATION**

There are many different coupling systems existing, so we can only show a few of deliverable brackets. Non shown brackets for quick coupling systems and direct connections are deliverable on request. The brackets are delivered in single parts. We recommend to weld these parts to the attachment after checking all measures directly with the loader. Check also tipping angles, end stops and possible collisions between attachment and loader.

**- Available quickly!**

# QUICK COUPLER BRACKETS

for loader with quick-coupling frame

A PERFECT ATTACHMENT IN 1 STEPS ① = 😊
